Mechanics

PHYS 5C/N or 6C/N
Electricity & Magnetism

The computer engineering minor provides a solid foundation in digital hardware, electronics, and computer software, as well as the prerequisite material in mathematics and physics. The minor is well-suited to students who wish to take part in the design of computer and embedded systems in any discipline. Computer Engineering 118/L, *Introduction to Mechatronics and Laboratory* or Computer Engineering 121/L, *Microprocessor System Design and Laboratory* provides a capstone engineering design experience for students pursuing the computer engineering minor.
